

Silent Gliss are innovators of style, quality and adaptability. Their range of window coverings does not stop at the conventional, it includes exciting solutions for:

- Curtains
- Roman Blinds
- Panel Glides
- Roller Blinds
- Dim-out Blinds
- Venetian Blinds
- Skylight Shading

...and many more products created with subtle flexibility to fit the most distinct spaces.

The preference of specifiers and clients for the large glazed areas made possible by modern technology is a continuing trend. With this comes challenges for the management of heat, light, privacy and glare as well as all of the advantages. Silent Gliss systems help attenuate these. Many present inaccessible or awkward shapes. Silent Gliss can deal with most of them for domestic or commercial use.

As the exclusive New Zealand agent of Silent Gliss blinds **artisan** delivers a full consultation, measure, quote, delivery and installation service to ensure you find the perfect product for your unique project.

To view a wide range of installed samples and product options please visit the artisan showroom at:

31a Normanby Rd, Mt Eden
